

E-Commerce Orders Dashboard Report

1. Introduction

The E-Commerce Orders Dashboard provides an overview of sales performance, customer behavior, order status, product performance, and geographical order distribution. It helps businesses monitor key performance indicators and identify trends for better decision-making.

2. Key Performance Indicators

- ✓ Total Sales: 10.22M
- ✓ Total Orders: 50K
- ✓ Total Unit Price: 5.46M
- ✓ Total Products: 2K
- ✓ Total Customers: 14.503K

3. Customer Analysis

The customer analysis shows that the Old Age customer group has the highest number of customers at 18.98K, followed by Mid Age customers at 18.72K and Young Age customers at 12.29K.

The dashboard also shows 7.91K first-time customers, while 13.94K customers are existing/non-first-time customers.

4. Order Status Analysis

The majority of orders have been successfully delivered, with 41.53K delivered orders. There are 3.99K returned orders, 2.01K cancelled orders, and approximately 2.47K shipped orders.

This indicates that order fulfillment performance is generally strong, with delivered orders representing the largest share.

5. Customer Ratings

Customer ratings indicate that 28.94K customers gave a good rating, while 11.37K gave an Average rating and 5.2K gave a Poor rating. Overall, the dashboard shows a positive customer satisfaction trend.

6. Country-wise Order Analysis

The United States has the highest number of orders at 14.0K, followed by India with 6.9K and the United Kingdom with 5.0K. Germany, Canada, UAE, Australia, Saudi Arabia, Brazil, France, Japan, and Oman contribute additional orders.

7. Monthly Customer Analysis

Customer counts remain relatively consistent throughout the year. July records the highest monthly customer count at approximately 4.39K, while February records the lowest at approximately 3.75K.

8. Top-Selling Product Categories

Electronics is the leading product category with sales of approximately 6.5M. It is followed by:

- Fashion: 1.0M
- Home & Kitchen: 0.9M
- Sports: 0.5M
- Automotive: 0.4M

9. Conclusion

The dashboard indicates strong overall e-commerce performance, with 10.22M in total sales and 50K orders. The United States is the leading market, Electronics is the strongest product category, and most orders are successfully delivered. The high proportion of good customer ratings also suggests generally positive customer satisfaction.
